

# Shantee

Group of companies

## Corporate Profile

Electrical panel Enclosure manufacturing, customized sheet metal fabrication and industrial powder coating solutions.

ELECTRICAL PANEL ENCLOSURE MANUFACTURER

CER APPROVED PANEL BUILDER

ISO CERTIFIED COMPANY

## Integrated Strength

### Fabrication Division

Sheet metal parts, cabinets, panels and bus bars.

### Powder Coating Division

Pretreatment, powder spray and oven curing.

# About Us – Fabrication Division

Shantee Multifabtech Pvt. Ltd.

## COMPANY PROFILE

- Established in 2024.
- Specialized in manufacturing customized sheet metal parts.
- Manufacturing facility expanded to 15,000 sq. ft. with 40+ team members.
- Led by 20 years of supply chain and sales experience, backed by 15 years of manufacturing operations.
- Serving customers across India with head office in Chhatral, Gandhinagar.
- Mission: deliver high-quality, reliable and cost-effective solutions tailored to customer needs.

**15,000**

Sq. ft. facility

**40+**

Team members

**20 Yrs**

Supply chain and sales  
experience

**15 Yrs**

Manufacturing operations  
support

Core strength: customized sheet metal fabrication for  
cabinets, panels and bus bar applications.

# About Us – Powder Coating Division

Shantee Multispeciality Coatings Pvt. Ltd.

## COMPANY PROFILE

- Established in 2025.
- Specialized in high-quality powder coating services for industrial and sheet metal components.
- Advanced powder coating facility with modern pretreatment and curing systems.
- 700+ sq. ft. powder coating space supported by 8+ skilled and 10+ semi-skilled team members.
- Wide range of finishes including matte, gloss, texture, metallic and custom shades.
- Consistent quality, corrosion resistance and durable surface protection.
- Serving customers across India with reliable and cost-effective coating solutions.

2025

Established

700+

Sq. ft. coating space

8+

Skilled team members

10+

Semi-skilled team members

Core service area: durable powder coating support for industrial and sheet metal components.

# Machinery Setup – Fabrication Division

Machines, capacity and make

| Type of Machine      | Working Capacity  | Make                  | No. |
|----------------------|-------------------|-----------------------|-----|
| CNC Laser            | 3 KW              | Agile                 | 1   |
| CNC Press Brake      | 250 Ton           | ADH                   | 1   |
| MIG Welding M/c      | 250 AMP / 450 AMP | Megatronics / Megmate | 7   |
| TIG Welding M/c      | 400 AMP           | Otto Arc – USA        | 1   |
| Pillar Drilling      | Up to 32 mm       | Local Make            | 1   |
| Stud Welding         | Up to 10 mm       | Local Make            | 1   |
| Pneumatic Power Tool | —                 | Local Make            | 12  |
| Spot Welding M/c     | —                 | Local Make            | 1   |
| Overhead Crane (EOT) | 5 Ton             | Robrust               | 1   |

Fabrication operations are supported by cutting, bending, welding, drilling, finishing and material-handling capability.

# Fabrication Facility Snapshot

Selected manufacturing images

**CNC Laser Cutting Machine**

**CNC Press Brake**

Dedicated fabrication capability supports cutting, bending and downstream manufacturing processes under one roof.

# Powder Coating Pretreatment Tanks

8-tank pretreatment system

**8-Tank Pretreatment System**

## TANK DETAILS

- Tank size: 2650 × 2100 × 1950 mm
- Total system: 8 tanks
- Used for cleaning, degreasing and pretreatment
- Supports consistent coating adhesion and finish quality

## PROCESS SEQUENCE

Material receipt → 8-tank pretreatment → Drying → Powder spray → Oven curing → Inspection → Packing → Dispatch

# Powder Coating Curing Oven

Large curing oven for durable finish

## OVEN DETAILS

- Oven size: 6000 mm L × 2400 mm H × 2400 mm W
- Designed for oven curing after powder spray
- Supports smooth, uniform and durable coating finish
- Suitable for cabinets, panels and sheet metal parts

## QUALITY FOCUS

Surface finish inspection, coating thickness check, color shade verification and final visual inspection.

OvenCuring

# Our Team – Fabrication Division

| Helpers                                | 05            |

Structured manpower allocation supports pretreatment, coating, curing, inspection and dispatch workflows.

# Our Product Range

Customized panels, cabinets, frames, sheet metal parts and bus bars

## PANELS AND CABINETS

- 01

EV Charger Cabinet
- 02

Control Panel / Desk Panel
- 03

ACDB Panel
- 04

Drive Cabinet
- 05

Solar Inverter Panel
- 06

Junction Box

## FRAMES, PARTS AND BUS BARS

- 07

Base Frame
- 08

Foundation Plate
- 09

UPS Cabinet
- 10

Customized Sheet Metal Parts
- 11

Copper Bus Bar and Sandwich Bus Bar

Product range supports fabricated panels, industrial cabinets, frames, sheet metal parts and bus bar requirements.

# Quality Control Equipment

Inspection and measurement tools

| Equipment                            | Quantity |
|--------------------------------------|----------|
| Digital Vernier Caliper              | 01       |
| Manual Vernier Caliper               | 01       |
| Micrometer                           | 01       |
| Measuring Tape – 3 Mtr               | 05       |
| Measuring Tape – 5 Mtr               | 01       |
| Measuring Tape – 10 Mtr              | 01       |
| Paint / Coating Thickness Instrument | 01       |

## Quality Focus

Dimensional checks, coating thickness verification and final visual inspection help maintain consistent production quality.

# Strategic Vision for the Future

Business expansion priorities

---

## **01** Expand into heavy metal fabrication

To handle larger project requirements.

---

## **02** Establish in-house machining capabilities

For higher precision and faster delivery.

---

## **03** Introduce complete panel solution including wiring

To offer end-to-end manufacturing services.

# Thank You

We look forward to working together.
